Dear Sir:

I hereby wish to request an
application form for a position as ~~analyst~~
for the Federal Bureau of Investigation.

although I do not possess a law
degree nor am I an accountant, I feel
that perhaps my five years of college
education ~~together~~ with five years experience
as an investigator for the Pennsylvania
Department of Public Assistance, might qualify
me for this particular type of work. Three
years of my experience has been in the
preparation of cases to be referred to the
State Department for prosecution for the
illegal acceptance of assistance.

Thank you for any consideration which
you might give to my request.

Very truly yours,

John F. Malone

RE: JOHN FRANCIS MALONE
Applicant - Special Agent

Dear Sir:

Transmitted, herewith, to the Bureau are the Special Agent Examination and Personal Interview Sheet on John Francis Malone, Applicant for the position of Special Agent, who was afforded the examination and personal interview at this office by Special Agent R. J. Untreiner on September 29, 1941.

It will be noted that Mr. Malone was favorably recommended by Agent Untreiner. At the time of the interview, Mr. Malone was furnished with a physical examination and confidential status letter form to be filled out and sent in. When he did not return these promptly, Agent Untreiner telephoned him and he stated that it appeared to him that the confidential status letter placed him in a probationary period and since he was already employed by the Pennsylvania Department of Public Assistance as an investigator, he was afraid that if he gave up his present position he might not be able to pass the Bureau's physical examination at Washington because of his knee injury and operation in 1933.

Mr. Malone was advised by Agent Untreiner that it would be necessary to have the physical examination form filled out and returned to this office, together with the confidential status letter, properly notarized, before his application could be given consideration.

Agent Untreiner further suggested to him that since there was some question as to his knee injury, he should have a doctor write a separate letter concerning his examination of the knee, to be submitted with the physical examination.

If and when these forms are received from this Applicant, they will be promptly forwarded to the Bureau.

Very truly yours, OCT 20 1941

RE: JOHN FRANCIS MALONE
APPLICANT-SPECIAL AGENT

Dear Sir:

The following is the contents of a letter addressed by the above-named applicant to this office under date of October 21, 1941.

"Subsequent to our telephone conversation of recent date, I have encountered another obstacle in the form of a strenuous objection on the part of my mother to leaving my present employment in the event that an appointment with the FBI should materialize. I am the sole support of mother and she does not feel we are in a position financially to carry ourselves over any period of unemployment which would result through failure on my part to meet the rigid physical requirements, should I receive an appointment. I feel however that if I could submit to a physical examination resembling as closely as possible that given by the Government, I would be able to change mother's attitude and then I could see my way clear to sign the form CC 74 which I now have in my possession. It is my plan, if arrangements can be made, to attend a clinic at the Robert Packer Hospital at Sayre, Pa., for said examination.

"I am uncertain as to the length of time which will be required to straighten out this matter. I trust that such a deferment would not completely nullify my application.

"Thank you for your kindness both during your interview and your telephone conversation. I sincerely regret any inconvenience which I have caused you."

Dear Mr. Hoover:

RE: JOHN F. MALONE
Applicant (Special Agent)

The writer has received a letter from John F. Malone, 92 8th Avenue, Carbondale, Pennsylvania, advising that he has applied for a position as Special Agent with the Bureau. Mr. Malone has informed me that he was given an interview and examination at the Philadelphia Field Office; however, he delayed in submitting the results of his physical examination to the Bureau and thought possibly his application might be disregarded because of the delay on his part.

Mr. Malone explained to me that the delay in sending in his report of the physical examination was due primarily to apprehension on his part of the final physical examination he would receive in Washington, if he were to receive an appointment.

I wish to inform the Bureau that I have personally known Mr. Malone since 1929 and sincerely feel that he possesses the ability and qualifications necessary to make a desirable Bureau agent. He presents an exceptionally good personal appearance, being over six feet tall, and well proportioned physically. With the exception of a knee injury, which he received some time ago, and is now completely healed, I feel that he is in good physical condition and capable of performing the duties of a Special Agent. I am also personally acquainted with his mother and brother, and can state unhesitatingly that both the applicant and his family enjoy the finest reputation. His moral conduct and personal life are beyond any question, and I am convinced that he is a loyal and patriotic American.

The applicant has a number of years of investigative experience, although he is lacking a law degree; yet I feel that the seven or more years that he has spent in investigative work would more than compensate for the lack of a law degree on his part. I attended Saint Charles College, Catonsville, Maryland, with Mr. Malone, and know that his mental ability is high and that he also possesses initiative and ambition. Since entering the Bureau, the writer has not, of course, been in frequent personal contact with him, but I have seen and visited him on practically every visit to my home.

I wish to give my unqualified recommendation to Mr. Malone, as I feel that he has the capability of developing into a better-than-average Agent with the Bureau.

MALONE, of 19 Mountain View Avenue, Slingerlands, N. Y., is now employed as a gear cutter by the General Electric Company, Schenectady. Applicant's annual salary has increased from \$1620 per year to \$1680 per year. He is classified as 3 A by Local Board No. 1, Carbondale, Pa. HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.
The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

Pennsylvania, which he had attended from 1924 to 1928, and graduated with a good record. His record at St. Charles College was good. He received 85 in Religion; 81-83 in Latin; 87-89 in Greek; 81-82 English; 94-75 and 89 in Mathematics; 82 in Economics; 82 in bookkeeping, 87-84 in public speaking. The records showed that he received A in application which Father GLEASON interpreted as meaning he was industrious and a hard worker. He received B in conduct, which Father GLEASON said was very good.

Father GLEASON further stated that he remembered the applicant, that he was an over-grown boy when he first came there. The boys could get his goat rather easily, and kidded him a great deal about coming from a small town, but as he grew older, he soon learned to control his temper. He was well behaved and all the instructors found him to be very satisfactory. He further advised that he entered into athletics, and enjoyed them. He said that he made a good appearance, was affable, friendly, and had no un-American tendencies. He said that the boy at the time he was at school was not radical, but a good, steady boy.

Father GLEASON further stated that the applicant's health was good, and he remembered him favorably. Father GLEASON stated that there were no other teachers now at the school who would remember the applicant. He said that at that time, he had been in the college department, and that most of the men now teaching were either gone, or were at that time, teaching in the high school department, and did not come in contact with him.

Details: EDUCATION

AT CARBONDALE, PENNSYLVANIA

Mother NETOMUBENE, Principal of St. Rose High School, made available to the Reporting Agent the applicant's scholastic record at that school. This record indicated that the applicant was born October 21, 1910. He entered St. Rose School in 1924 and graduated in 1928, with an average for the four years of about 85%. The record did not indicate the applicant's standing in his class, but Mother NETOMUBENE stated that his average would place him in the upper half in a class of about 50. The applicant's record indicated that he was punctual and regular in his attendance in class and there was no indication of any disciplinary action having been taken against him while a student at this High School.

Mother NETOMUBENE advised that none of the Sisters who taught at the High School during the period between 1924 and 1928 were still teaching at this School. Consequently, it was not possible to interview any of the applicant's former teachers. However, Mother NETOMUBENE advised that the applicant must have made a good record for discipline and conduct because she noted that his record was forwarded to St. Charles College in Maryland, which is a Seminary for the priesthood. According to Mother NETOMUBENE, the applicant would not be recommended for such a School unless he had an unblemished record in High School.

AT SCRANTON, PENNSYLVANIA

FRANK O'HARA, Registrar of Scranton University, made available the applicant's scholastic record while a student at Scranton

Philadelphia File No. 67-4134

University. This record indicated that the applicant attended Scranton University from September, 1933 to June, 1934, when he graduated with an A.B. degree. The applicant sustained no failures during the year he attended this University and his final average for that year was about 85%. Mr. O'HARA advised that the applicant would have no final standing in the graduating class because he was only in attendance at this School for one year. Mr. O'HARA advised that the applicant's record reflected that no disciplinary action was ever taken against him while a student at the Scranton University. Mr. O'HARA recalled the applicant as a quiet, reserved young man, who did not take very much part in the social life of the college during the short period of his attendance. Mr. O'HARA attributed this to the fact that the applicant had spent several years in a Catholic Seminary, studying for the priesthood. Mr. O'HARA said that none of the applicant's former professors were available for interview at this time, most of them having transferred to other Universities. Mr. O'HARA was positive that the applicant was never involved in any unsavory escapades. Mr. O'HARA declared that the applicant never gave any indication of possessing un-American sympathies while a student at the Scranton University.

EMPLOYMENT

AT CARBONDALE, PENNSYLVANIA

HARRY W. COLMAN, Principal of Carbondale High School, consulted the records of that School and advised that the applicant was employed as a substitute teacher at that school for fourteen days in February, 1936, nine days in November, 1936 and seventeen days in December, 1936. Mr. COLMAN stated that the applicant's employment was on a purely temporary basis. According to Mr. COLMAN, the applicant was a most satisfactory employee during the short period of his employment. Mr. COLMAN said that he would have no hesitancy in rehiring the applicant for a similar position.

Mr. COLMAN advised that he has known the applicant and his family for a number of years and there never has been any question concerning their loyalty as citizens. Mr. COLMAN declared that the applicant is a very outstanding young man in Carbondale and that he is looked up to by everyone. According to Mr. COLMAN, the applicant has acted as chairman of the Charity Ball for the benefit of St. Joseph's Hospital at Carbondale and he has been very active in assisting the various charitable functions designed to assist the Hospital financially.

Mr. COLMAN was most emphatic in stating that the applicant

Philadelphia File No. 67-4134

bears an extremely good reputation in the vicinity of Carbondale.

AT SCRANTON, PENNSYLVANIA

RUSSELL EURDICK, Assistant Executive Director, Lackawanna County Department of Public Assistance, made available to the Reporting Agent the applicant's personnel record with that Department. This record revealed that the applicant was employed from April 29, 1935 to October 6, 1936 as a Social Investigator by the Department of Public Assistance at a salary of \$80.00 a month.

On October 6, 1936, he transferred to the Mothers Assistance Fund in the same capacity, where he received a salary of \$115.00 a month. The applicant remained with the Mothers Assistance Fund until January, 1938, when that Division was amalgamated with the Department of Public Assistance.

Since January 1, 1938, the applicant has been employed as a case load investigator and later on as Supervisor of Restitution by the Department of Public Assistance, at a salary of \$140.00 a month.

EURDICK explained that the applicant's job as an investigator required him to go into the homes of indigent persons and determine their eligibility for relief. The applicant was also required to advise and assist the family in every way so that they might work out their social and financial problems. According to EURDICK, the applicant has been such an outstanding employee that on June 16, 1941, he was put in charge of that Division, which is responsible for handling restitution work. This work is aimed at those persons who have secured relief without merit and who are now being required to make restitution.

EURDICK described the applicant as a capable fellow and energetic employee. EURDICK was most emphatic in declaring that he rates the applicant as the most valuable employee in the Department. According to EURDICK, the applicant has brought a great deal of initiative and original thought to his job. The applicant has been the first one to handle restitution work and he has endeavored to evolve a system whereby this work could be carried on more efficiently.

EURDICK stated that he would have no hesitation whatsoever in recommending the applicant for any position of trust and confidence. EURDICK advised that the applicant was a thorough gentleman and that he conducted himself in a most dignified and becoming manner. EURDICK was positive that the applicant possesses no un-American tendencies.

Philadelphia File No. 67-4134

JOSEPH WAGSTAFF, 1817 Monsey Street, stated that he was the County Office Manager for the Lackawanna County Department of Public Assistance. WAGSTAFF advised that the applicant worked under his direct supervision and amongst WAGSTAFF'S duties, he is required to evaluate the various employees under his supervision every six months. WAGSTAFF exhibited to the Reporting Agent the applicant's evaluation sheet dated November 10, 1941. This sheet is divided into four categories, superior, standard, sub-standard, and unsatisfactory. The applicant's evaluation sheet indicated that he was rated as superior in work plan and use of time; case coverage; accuracy; organization and clarity of reports; and obtaining information and properly using information. The applicant was rated as standard in courtesy and appearance, but superior in cooperation with other employees.

WAGSTAFF advised that the applicant's rating was 93.8, which was one of the highest ratings given to any employee of the department. According to WAGSTAFF, the applicant is one of the most valuable men amongst the 250 persons employed by this Department. WAGSTAFF stated that the applicant has done a fine job as Supervisor of Restitution and that he has contributed a good deal to the job through his own initiative. WAGSTAFF said that the applicant's job is to prepare the cases for the County Attorney so as to enable the latter to go into Court and seek restitution of money advanced to unworthy relief clients.

WAGSTAFF advised that he would have no hesitancy in recommending the applicant for a position with this Bureau and he said that he feels confident that the applicant would make good at any job that might be offered to him. WAGSTAFF said that the applicant possesses a pleasing personality and said that he gets along well with his fellow employees. According to WAGSTAFF, the applicant enjoys good health and very rarely misses any time at work. WAGSTAFF advised that the applicant has never given any indication of possessing subversive or un-American sympathies.

ANN WALSH, 209 S. Laurel Street, Archbald, Pennsylvania, advised that she was a fellow investigator with the applicant for the Mothers Assistance Fund and later for the Department of Public Assistance for Lackawanna County. Miss WALSH stated that the applicant is a very capable investigator and that she knows personally that he has done an excellent job since he has been made Supervisor of Restitution. Miss WALSH advised that the applicant has endeavored to work out a system whereby the work of restitution might be more efficiently handled by the Department.

Miss WALSH described the applicant as very conscientious and

thorough in his work. She did say, however, that the applicant was not too aggressive, although he possessed a pleasing personality. Miss WALSH advised that the applicant was considered to be an outstanding young man amongst the employees of the Department and that there had never been the slightest stain on his reputation during the time that he has worked there.

The information set forth above was confirmed by PAULINE GODWIN, 504 Monroe Avenue, who has worked with the applicant as a Social Investigator for the Department of Public Assistance since 1936. Both Miss WALSH and Miss GODWIN stated that the applicant has never given the slightest indication of possessing un-American or subversive sympathies.

REFERENCES

AT CARBONDALE, PENNSYLVANIA

Rev. JOHN A. O'NEILL, 616 Madison Avenue, Jermy, Pennsylvania, stated that he has known the applicant since the latter was about 15 years of age. Father O'NEILL advised that he first became acquainted with the applicant during the time that he was a Curate at St. Rose's Church, Carbondale, which the applicant attended as a boy and young man. Father O'NEILL said that he has been very closely associated with the applicant since they first became acquainted. After the applicant graduated from High School, he went away to St. Bernard's Seminary at Rochester, New York to studied for the Catholic priesthood. Father O'NEILL said that the applicant did not continue with his studies for the priesthood because he sustained an injury to his knee. According to Father O'NEILL, the Bishop of the Diocese did not deem it advisable for the applicant to continue on in the Seminary, since there was a possibility that he might not be able to use his knee. However, Father O'NEILL said that the knee healed up completely and the applicant has never in the least been hampered with it.

Father O'NEILL said that he knows the applicant to be a very clean living, well behaved young man. Father O'NEILL considers the applicant to be one of the finest young men he has encountered during the years that he has been a Catholic priest. He described the applicant as loyal, intelligent, conscientious, and personable. Father O'NEILL said that on the basis of his close friendship and association with the applicant over a period of fifteen years, he felt that he could conscientiously recommend the applicant for any position of trust and confidence for which the applicant might be considered. Father O'NEILL advised that the applicant has never given the slightest indication of possessing un-American or subversive sympathies.

Dr. WALTER E. LOFTUS, 17 N. Church Street, Carbondale, stated

Philadelphia File No. 67-4134

that he has been the applicant's family physician for about thirty years. Dr. LOFTUS advised that he has treated the applicant and his entire family during that period of time. According to Dr. LOFTUS, the applicant comes from one of the finest families in Carbondale. Dr. LOFTUS described the applicant as a sober, industrious, well behaved young man, who is liked and respected by everyone in the community. Dr. LOFTUS said that the applicant is a good mixer, but he is not the "hale fellow well met" type. According to Dr. LOFTUS, the applicant is not the sort of young man who frequents taverns or barrooms. Instead he associates with a small but select group of people in the town. Dr. LOFTUS stated that the applicant enjoys good health and he confirmed the information given by Father O'NEILL to the effect that the applicant left St. Bernard's Seminary because of a knee injury. However, Dr. LOFTUS declared that his knee is perfectly sound at this time and it is his opinion that the applicant is capable of doing strenuous work.

Dr. LOFTUS asserted that there has never been any question concerning the loyalty of the applicant or his family as to American ideals and Government. Dr. LOFTUS declared that he would give the applicant an unqualified recommendation for a position with this Bureau and that he personally felt that the applicant was the type of young man who could serve his Country well in the work which the Bureau was doing.

The following references confirmed the information set forth above and all stated that they would give the applicant an unqualified recommendation as a prospective employee.

THE FBI PLEDGE FOR LAW ENFORCEMENT OFFICERS

Humbly recognizing the responsibilities entrusted to me, I do vow that I shall always consider the high calling of law enforcement to be an honorable profession, the duties of which are recognized by me as both an art and a science. I recognize fully my responsibilities to defend the right, to protect the weak, to aid the distressed, and to uphold the law in public duty and in private living. I accept the obligation in connection with my assignments to report facts and to testify without bias or display of emotion, and to consider the information, coming to my knowledge by virtue of my position as a sacred trust, to be used solely for official purposes. To the responsibilities entrusted to me of seeking to prevent crime, of finding the facts of law violations and of apprehending fugitives and criminals, I shall give my loyal and faithful attention and shall always be equally alert in striving to acquit the innocent and to convict the guilty. In the performance of my duties and assignments, I shall not engage in unlawful and unethical practices but shall perform the functions of my office without fear, without favor, and without prejudice. At no time shall I disclose to an unauthorized person any fact, testimony, or information in any pending matter coming to my official knowledge which may be calculated to prejudice the minds of existing or prospective judicial bodies either to favor or to disfavor any person or issue. While occupying the status of a law enforcement officer or at any other time subsequent thereto, I shall not seek to benefit personally because of my knowledge of any confidential matter which has come to my attention. I am aware of the serious responsibilities of my office and in the performance of my duties I shall, as a minister, seek to supply comfort, advice and aid to those who may be in need of such benefits; as a soldier, I shall wage vigorous warfare against the enemies of my country, of its laws, and of its principles; and as a physician, I shall seek to eliminate the criminal parasite which preys upon our social order and to strengthen the lawful processes of our body politic. I shall strive to be both a teacher and a pupil in the art and science of law enforcement. As a lawyer, I shall acquire due knowledge of the laws of my domain and seek to preserve and maintain the majesty and dignity of the law; as a scientist, it will be my endeavor to learn all pertinent truth about accusations and complaints which come to my lawful knowledge; as an artist, I shall seek to use my skill for the purpose of making each assignment a masterpiece; as a neighbor, I shall bear an attitude of true friendship and courteous respect to all citizens; and as an officer, I shall always be loyal to my duty, my organization, and my country. I will support and defend the Constitution of the United States against all enemies, foreign and domestic; I will bear true faith and allegiance to the same, and will constantly strive to cooperate with and promote cooperation between all regularly constituted law enforcement agencies and officers in the performance of duties of mutual interest and obligation.

Selective Service Act

as 3-A on October 7, 1941. She stated this classification was accorded to applicant because of his mother's dependency.

Personal Interview with Interviewing
Official R.J. Untreiner, Sept. 29, 1941.

States applicant's personal appearance, approach and personality is good; self-confident and average in tact; answered general questions quickly; has had 7 years investigative experience with the Department of Public Assistance, State of Pennsylvania; appears to be resourceful; and is likely to develop. However, he was slightly nervous; has not studied Federal Procedure; and does not appear to have executive ability. Interviewing Official Untreiner further stated that applicant is tall and clean-cut looking and it is believed that he is good material for the position of Special Agent.

MISCELLANEOUS (Cont.)

In a letter to the Bureau dated October 17, 1941, Special Agent Untreiner advised that he had favorably recommended applicant on September 29, 1941 and at that time furnished him with a physical examination and confidential status letter form to be filled out and sent in. When he did not return these promptly, Agent Untreiner telephonically contacted applicant and he stated that it appeared to him that the confidential status letter placed him in a probationary period and since he was already employed by the Pennsylvania Department of Public Assistance as an investigator, he was afraid that if he gave up his present position he might not be able to pass the Bureau's physical examination at Washington because of his knee injury and operation in 1933. Agent Untreiner further advised that he suggested to applicant that since there was some question as to his knee injury, he should have a doctor write a separate letter concerning his examination of the knee, to be submitted with his physical examination.

The following is the contents of a letter addressed by applicant to the Philadelphia Office under date of October 21, 1941. "Subsequent to our telephone conversation of recent date, I have encountered another obstacle in the form of a strenuous objection on the part of my mother to leaving my present employment in the event that an appointment with the FBI should materialize. I am the sole support of mother and she does not feel we are in a position financially to carry ourselves over any period of unemployment which would result through failure on my part to meet the rigid physical requirements, should I receive an appointment. I feel, however, that if I could submit to a physical examination resembling as closely as possible that given by the Government, I would be able to change mother's attitude and then I could see my way clear to sign the form CC 74 which I now have in my possession. It is my plan, if arrangements can be made to attend a clinic at the Robert Packer Hospital at Sayre, Pennsylvania for said examination."

Under date of February 24, 1942, a communication from applicant was received at the Philadelphia Office in which he states that a physical examination taken by him reveals that no serious results of the operation upon his knee exist and he believes there is no evidence of any handicap which might hinder employment in this Bureau.

EXCERPTS FROM SELECTIVE SERVICE REGULATIONS

622.21 Class II-A: Man necessary in his civilian activity.—(a) In Class II-A shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is essential to the national health, safety, or interest.

(b) Class II-A deferments shall be for the period of 6 months or less as may be deemed necessary to secure or train a replacement for the registrant. If there is a change in the registrant's status during the period of his deferment in Class II-A, his classification shall be reopened and considered anew. At the expiration of the period of the registrant's deferment in Class II-A, his classification shall be reopened, and he shall be classified anew. When the registrant is classified anew, he shall not be again placed in Class II-A unless such classification is warranted, and in addition, the registrant or the registrant's employer convinces the local board, or the board of appeal (if an appeal is taken), or the President (if an appeal is permitted and is taken) that a reasonable but unsuccessful effort has been made during the period of deferment to secure or to train a replacement. If these conditions are met and the registrant is again placed in Class II-A, such further deferment shall be for the period of 6 months or less as may be deemed necessary to secure or train a replacement. The same rule shall be applied when again classifying such a registrant at the end of each successive period for which he has been classified in Class II-A.

622.22 Class II-B: Man necessary to the War Production Program.—(a) In Class II-B shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, or in training or preparation therefor, the maintenance of which is necessary to the war production program.

(b) Class II-B deferments shall be for a period of 6 months or less. If there is a change in the registrant's status during the period of deferment in Class II-B, his classification shall be reopened and considered anew. At the expiration of the period of the registrant's deferment in Class II-B, his classification shall be reopened, and he shall be classified anew. In again classifying the registrant, care should be taken not to impede the war production program. The registrant should be again classified in Class II-B for a period of 6 months or less if such classification is warranted and if the registrant's employer has made a reasonable but unsuccessful effort to secure or train a replacement for the registrant during the period of deferment. The same rule shall be applied when again classifying such a registrant at the end of each successive period for which he has been classified in Class II-B.

622.23 General rules for classification in Class II-A and Class II-B.—(a) On the local board is placed the primary responsibility of deciding which men should be deferred because of their civilian activities. It is in the national interest and of paramount importance to our national defense that civilian activities which are directly contributing to the war effort or which are otherwise essential to the national health, safety, or interest, should be maintained where possible, consistent with the fundamental purposes of the Selective Training and Service Act of 1940, as amended.

(b) No deferment from training and service shall be made in the case of any individual except upon the basis of the status of such individual, and no deferment shall be made of individuals by occupational groups or groups of individuals in any plant or institution.

(c) The local board may avail itself of the assistance of all Federal, State, or local agencies (such as the Office of Production Management Labor Supply Committees, State and Federal employment services, State occupational advisors, county agricultural agents, or others) to obtain information in cases of occupational deferments.

622.24 "Necessary man" defined.—A registrant shall be considered a "necessary man" in industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, including training or preparation therefor, only when all of these conditions exist: (1) He is, or but for a seasonal or temporary interruption would be, engaged in such activity; (2) he cannot be replaced because of a shortage of persons with his qualifications or skill in such activity; and (3) his removal would cause a serious loss of effectiveness in such activity.

B. 2.

The Federal Bureau of Investigation has been designated as the sole civilian Government investigative agency, having jurisdiction over the investigation of matters pertaining to the national defense, that is, espionage, sabotage, registration of agents of foreign principals and the like. Further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, the National Motor Vehicle Theft Act, and numerous others. The Federal Bureau of Investigation has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an Act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies each quarter so that trends of crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records, not only on a national basis, but on an international basis. We have some thirty-one million sets of fingerprints on hand today. We are receiving the fingerprint records of all persons enlisted or being inducted into the Army and enlisted in other military services. Thousands of persons in public utility positions are fingerprinted and the prints are retained in our files. Those working in national defense industries on many occasions are fingerprinted, their prints being included in our files. Our Government employees' prints are included. We are receiving thousands of criminal fingerprints from all police agencies in the country daily and it is essential that we immediately be able to notify the arresting agency of the criminal record of the individual because he may be wanted for more serious crimes in other sections of the country and if he is to be released on a mere vagrancy or other charge, he may be set free to continue his depredations on society. This Bureau, together with many other foreign countries, participates in the international exchange of fingerprints. Hundreds of international crooks are brought to task yearly through the media of this service we have rendered.

Our Criminology Laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A great deal of their work is done in the examination of suspected sabotage cases at the present time. The scientists in that Laboratory have lectured throughout the country on bombs and explosives so that local police agencies may be adequately prepared to handle any such matters which might arise under their jurisdiction.

There are contained in our Files Section the files of hundreds of thousands of individuals whose activities are of the greatest importance to the country today. The work of the Files Section and the records of that section which have to do not only with the investigation of kidnaping, extortion, bank robbery, and like cases but also the investigation of our espionage, sabotage, foreign agent cases, and others, are of course accessible to employees working in that unit. It is most essential that only the most trusted employees be so assigned.

B. 5.

The work of the Federal Bureau of Investigation is of the utmost importance in the national defense. It is essential that thoroughly qualified personnel of the highest integrity and background be secured for every position in the Bureau. Our work is the guarding of the internal security of the country, not only in national defense matters, but in the control of those criminals who previously had terrorized the country in waves of bank robbery, kidnaping, extortion, white slavery, automobile theft, and numerous other crimes. There is no doubt whatsoever in the minds of law enforcement officials that should any group be permitted to have the assurance that their activities were being minimized during the present national emergency, we would have a tremendous country-wide wave of crime in that particular category in a very short period of time. It is, therefore, essential that from a national defense standpoint and from a public security standpoint the Bureau maintain its qualified staff at an absolute maximum in order to continue to have control of the criminal element under its jurisdiction.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 11th day of May, 19 42

B. 7. a. b. c.

The Federal Bureau of Investigation is primarily a service agency. We serve our Government and the public. We cannot determine the amount of work which is going to be referred to us. If there is a crime wave of local or national significance at any time the work of the Bureau is increased in comparison. Our identification, laboratory, and crime statistics facilities reflect very definitely the trends in the country. We must have available personnel to properly handle the thousands of fingerprint records being received by us daily. We are at the present time receiving approximately thirty-four thousand sets of prints daily. We must have a scientific staff in the laboratory to examine scientific evidence. We must have an investigative force of sufficient size to handle the work being referred to us. We must have a technical and supervisory staff of sufficient size to render the service to our investigative, identification, laboratory, and statistical staffs so that we may have the benefit of the wealth of information in our various files. The work of the Federal Bureau of Investigation has increased so tremendously that every employee in the Bureau, regardless of his position, is performing a tremendous amount of overtime service. Our Special Agent investigators are performing no less than four hours a day overtime service. In the present emergency we have found it necessary to curtail leave because of inadequate personnel and many of our men have worked over long periods of time without having any time off for vacation.

D. 1.

The additional duties imposed upon the Bureau since the declaration of the national emergency have made it necessary that our staff be more than doubled. From the information furnished under sub-heading B, it will be seen that it is essential to carefully investigate every employee in the Bureau. All of our employees in the performance of their work at one time or the other has opportunity to observe and note the content of confidential investigative reports, the publication of which would be most detrimental to the national safety. We have had considerable difficulty in securing sufficient employees. We find that out of applicants who file application, we are successful in appointing about one out of every one hundred. It, therefore, means that if we lose an employee after he is fully investigated and is being given training or has been experienced, we must again consider on an average, one hundred persons before he can be replaced. In the accelerated program of the Government it is essential that the Federal Bureau of Investigation work at top speed to keep abreast of its duties and investigation of matters pertaining to national defense, its regular activities, and its most important and essential identification activities at this time.

D. 5.

At the present time the Federal Bureau of Investigation is employing additional qualified persons as rapidly as they can be found. The assembled Congress has in the past several months passed several bills which will increase even to a greater extent our present volume of work. The needs of the service as to employees fluctuate with the periods of stress in the country.

D. 6. a.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces five hundred and thirty-five hours of study. During that period of time they are trained not only in investigative techniques and procedures but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the field service after training, their skill, of course, increases with their length of service in the field.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

E.O.D. May 4, 1942
Present Grade and Salary CAF-9, \$3200.00 per annum.
FORTY-FIVE DAY EFFICIENCY RATING.

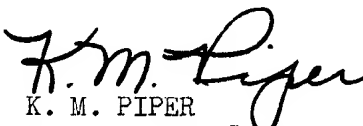

There is rendered herewith a 45-day efficiency rating on the above captioned Special Agent, who reported to the Buffalo Field Division, his first office of assignment, on July 28, 1942.

This agent has been assigned to general investigative matters in the vicinity of Buffalo, and his investigations have been thorough considering his limited field experience. I have been advised that in his dictation he has had his facts well marshalled and has dictated at an even rate of speed, using good reporting language.

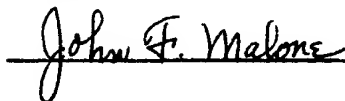

This agent has been in regular attendance at newly appointed agents' conferences, where he has been alert and attentive. His overtime during the month of August 1942 has averaged 6.92 hours per day, which is above the office overtime. In firearms training he has averaged 79% in the use of all Bureau firearms. I have noted that on the range he has conducted himself with due regard for safety precautions. I believe that he is temperamentally suited for assignment of a dangerous character. He has a New York State operators license and drives a car in a capable manner.

This agent makes a favorable personal appearance, and has taken a great interest in his work. I believe that he has a commendable attitude toward the Bureau and his assignments, and is endeavoring to develop himself as quickly as possible. He has a good type personality and I believe that he is developing satisfactorily at the present time.

Very truly yours,

K. M. PIPER
Special Agent in Charge

RE-TRAINING

0
JOHN F. MALONE, SPECIAL AGENT,
BUFFALO FIELD DIVISION.

E.O.D. May 4, 1942.

PRESENT GRADE AND SALARY - CAF 9, \$3200 per annum.

There is rendered herewith a transfer efficiency rating on the above captioned Special Agent, who reported to the Buffalo Field Division, his first office of assignment, on July 28, 1942, and left this district on transfer to the New York Field Division, on November 16, 1942.

This agent was assigned to general investigative matters in the vicinity of Buffalo, and considering his limited experience in the field, his investigations have been fairly thorough. He has submitted his reports in acceptable reporting language, and I have been advised that his dictation has been well organized, and he has dictated at a good rate of speed.

In connection with a quarterly conference for special agents in this office during the month of August, 1942, he attained to a rating of 72 per cent in a written examination. He has been in regular attendance at new agents' conferences, where he has been alert and attentive. In overtime he has performed 6 hours and 15 minutes per day during his assignment in this office, which is considerably more than the average office overtime. In firearms training he has averaged 81.6 per cent, in all Bureau firearms, which is below the office average of 87 per cent. I have noted that on the range he has conducted himself with due regard for all safety precautions. He has participated in arrests and searches of enemy aliens, and I believe he is temperamentally suited for assignments of a dangerous character.

This agent makes a favorable personal appearance and has a good interest and enthusiasm toward his assignments. He has an excellent attitude toward the Bureau, and has been endeavoring to develop himself as quickly as possible. He has been cooperative with the administration of the office, and has shown substantial development during his period of assignment in this office.

Very truly yours,

K. M. Piper
K. M. PIPER,
Special Agent in Charge.

JOHN F. MALONE Special Agent CAF 9
45-Day Efficiency Rating as of December 31, 1942

5-4-42

Since this agent's arrival in the New York Office he has been engaged mainly in the investigation of Bureau applicants. At the present time he has been placed on other types of work in order to give him a broader experience.

This agent is well built, dresses neatly, and makes a satisfactory appearance. He has a quiet personality and appears to conduct himself in a businesslike manner. He has handled a satisfactory amount of investigations and performed a good amount of overtime. He has an average knowledge of the Bureau's work, but appears reluctant to ask questions of his superior even though he has certain doubts in his mind concerning a particular method of procedure. I would suggest to him that he not hesitate to discuss such problems, in view of the fact that it will oft-times obviate the necessity of correcting mistakes once they are made.

Although Agent Malone is not the enthusiastic type, he appears to take an interest in his work and to be loyal to the Bureau. He has prepared his work well and what little dictation he has done has been performed satisfactorily. His ability to drive a car is good, and he has a satisfactory firearms record. I would say that he needs an average amount of supervision.

Agent Malone has not had an opportunity to testify in this district. Due to the nature of the work he has performed in this office he has not been used on any dangerous assignments, but it is believed that he could handle such assignments satisfactorily under proper supervision.

In general, this agent's progress has been average, and it is believed he should develop along the lines desired by the Bureau.

Dear Sir:

It is observed that during the course of the recent inspection of the New York Field Office, you made a grade of 82 on the Manual of Rules and Regulations.

This, of course, is an unsatisfactory rating and it reflects insufficient information concerning the Bureau's regulations. This is a condition which you must correct. You should begin immediately a systematic study of the Bureau's manuals so that you will be able to pass any future examinations.

It is obvious that an Agent cannot perform his duties satisfactorily unless he has a proper knowledge of the fundamental rules and procedures. The Bureau must insist that in the future you attain the required standard.

At the conclusion of his training period, Mr. Clegg said he was average; made a substantial appearance, but did not have a great deal of color in his personality; was matter-of-fact in his attitude; believed he would be sincere and conscientious in his work, but needed to develop more aggressiveness; and he had shown marked improvement in personality while in training.

On 7/29/42 he was assigned to the Buffalo Office. JOHN F. MALONE, Special Agent
Annual Efficiency Report as of March 31, 1943
Grade CAF 9, Salary \$3200 per annum
New York, New York

John F. Malone entered the Bureau as a Special Agent on May 4, 1941. He has been assigned to the New York Field Division office since November 16, 1942 and prior thereto he was assigned to the Buffalo Field Division office. He is presently in Grade CAF 9 and receives a salary of \$3200 per annum.

This agent is tall, well built, dresses neatly, and makes a favorable, substantial appearance. He is a hard worker, conscientious individual. He is mature and has a good personality. He shows an average amount of force and aggressiveness and in general has shown initiative and resourcefulness in his work. This agent received a grade of 82% on the Manual of Rules and Regulations and a grade of 100% on the Manual of Instructions and National Defense Manual at the time of the inspection examination in the New York office in January, 1943.

This agent prepares his work well, uses good sentence structure, and dictates at a moderate rate of speed. He possesses a New York State automobile driver's license, having passed the required driver's test. He has appeared before the United States Commissioner on numerous occasions and has testified twice before the Grand Jury since his assignment to this office and testified on one occasion while he was assigned to the Buffalo office. I have not had the opportunity to hear this agent but considering his appearance and general bearing and poise I believe he should make a very good witness. It is noted that he received a grade of good plus in moot court while in attendance at the new agents' training course at the Bureau.

Special Agent Malone is qualified in the use of all Bureau firearms. His ability to handle each of the Bureau's various weapons appears to be commensurate with that of the average agent with the same length of service. He is attentive, observes all safety precautions, and is believed suited for use on dangerous assignments. He has shown an interest in firearms and has voluntarily attended special instructions courses available in the New York office. Agent Malone has made arrests of a number of subjects in Selective Service cases in this office and has also arrested three subjects in National Motor Vehicle Theft Act cases and approximately ten alien enemies while he was assigned to the Buffalo Field Division office. This agent has had no experience on physical surveillances but considering his general appearance I believe that he could be satisfactorily used on such an assignment.

Agent Malone is fair in the use of the typewriter but does not use the touch system. He does not take shorthand. His reports have been well prepared and his sentence structure is good. His reports in general have required only the average amount of supervision. This agent is a good conversationalist and I believe that he makes a very good impression in his contacts with the general public.

public and with law enforcement officials. He organizes his work well.

Agent Malone has been assigned exclusively to Selective Service cases since December 28, 1942. During the period of November 16, 1942 to December 28, 1942 while he was in the New York office he was assigned to the investigation of Bureau applicants. This agent advises me that while he was assigned to the Buffalo Field Division office he received experience in the investigation of internal security cases and also in the investigation of National Stolen Property Act cases, National Motor Vehicle Theft Act cases and extortion cases.

There has been no occasion to assign this agent to supervisory or administrative work and I have not had the opportunity to observe his ability in this respect. Agent Malone has not been assigned to any technical surveillances since he has been in the Field. This agent has performed three hours and six minutes overtime per day since his assignment to the New York office. The average daily overtime for the New York office for the past six months was two hours and fifty-five minutes.

Agent Malone is single and has indicated that he is desirous of receiving an SIS assignment. He has studied Latin for nine years, Greek two years, French three years, Italian two years, German two years, and Hebrew two years. Prior to entering the Bureau this agent taught high school for approximately eight months and was an investigator for the Pennsylvania Department of Public Assistance for eight years. After this agent has received some additional Field experience I believe that he could be satisfactorily used on an SIS assignment.

MEMORANDUM FOR MR. GLAVIN

RE: JOHN F. MALONE
Special Agent

The above-named agent was considered for reallocation on January 29, 1943, and the recommendation was made that he should be reallocated to Grade CAF-10 at \$3500 per annum. The personal recommendation had already gone to the Department and the raise was to be effective February 16, 1943. Inasmuch as Special Agent Malone recently failed the examination on the Manual of Rules and Regulations during the recent inspection of the New York Office, his promotion was cancelled pending a re-examination. On the recent re-examination on the Manual of Rules and Regulations, which was received in the Bureau on April 2, 1943, Agent Malone made a grade of 100.

RECOMMENDATION: It is recommended, therefore, that Agent Malone be reallocated to Grade CAF-10 at \$3500 per annum at this time.

Respectfully,

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

Gentlemen:

Reference is made to the Selective Service case of Mr. John P. Malone, who is registered at your Board as Order Number 2689. You will recall that deferment was previously requested for this registrant by reason of the fact that he holds the position of Special Agent; however, you have recently placed him in Class I-A.

Under the provisions of Executive Order 9309, Section II, Paragraphs 2 and 3, the Chairman of the War Manpower Commission has approved a Regional Committee for the Federal Bureau of Investigation. This request for occupational deferment by this Bureau has been reviewed and approved by the Agency Committee, and the Agency Committee has approved our request for an appeal of your classification in this case.

In view of the fact that Mr. Malone occupies a position in this Bureau that has been designated as a key position by the Review Committee on Deferment of Government Employees of the War Manpower Commission and as it is not possible at this time to secure a replacement for him, it is requested that you consider this letter as a formal request for an appeal.

The principal place of employment of this registrant is New York, New York.

JOHN F. MALONE, Special Agent
CAF 10, \$3500

ANNUAL EFFICIENCY REPORT, March 31, 1944
New York Field Division Office

EOD 5-4-42

Special Agent Malone entered the Bureau on May 4, 1942 and has been assigned to the New York Field Division office since November 16, 1942. He was previously assigned to the Buffalo Field Division office.

This agent is tall, well built, dresses neatly, is mature and presents a good, substantial appearance. He has a friendly, likable personality and gets along well with his fellow agents and is possessed of an average degree of force and aggressiveness. He has shown good initiative and resourcefulness in his work.

This agent is very good in his dictation and prepares his work well. He possesses a New York State automobile driver's license, having passed the required test. He has testified before the Grand Jury on approximately thirty cases in connection with Selective Service investigations and advised that he testified before the Grand Jury on two occasions while assigned to the Buffalo office in connection with National Motor Vehicle Theft Act cases. He was afforded moot court training in this office on January 21, 1944 and received a rating of good.

This agent is qualified in the use of all Bureau firearms and his ability to handle them is good. He is considered capable of handling dangerous assignments. This agent has had limited experience on physical surveillances, and I believe that he could be very well used in this type of work considering his general ability and appearance. He is fair in the operation of the typewriter but does not take shorthand.

Agent Malone prepares his reports well and they require a minimum amount of supervision. I believe this agent makes a very good impression in his contacts with law enforcement officials and with the public in general. He is a good conversationalist and handles himself well. Agent Malone proceeds with his investigations on his own initiative and his work in general requires less than average supervision. He is very cooperative and tactful.

Agent Malone has been assigned exclusively to Selective Service investigations during the past year. He advised that while assigned to the Buffalo office he received experience in the investigation of national defense matters and also general criminal investigations. There has been no occasion to assign Agent Malone to supervisory or administrative work and therefore I have not observed his ability in this respect. I believe that he possesses average ability in this regard and he organizes his own work well. He has not been assigned to any technical surveillances since he has been in the Bureau.

Special Agent Malone is enthusiastic in his work and takes a keen interest and performs an above average volume of work in a capable manner, and I consider him a very good agent in his classification.

MEMORANDUM FOR THE SPECIAL AGENT IN CHARGE

Re: JOHN FRANCIS MALONE
SPECIAL AGENT
SELECTIVE SERVICE STATUS

Pursuant to your telephonic request of this date the undersigned proceeded to Carbondale, Pa. and examined the file of the above agent at Local Board #1, Carbondale. The file showed that he is now 33 years old, having been born in Carbondale on October 21, 1910. He was first classified 3-A but after entering the Bureau on May 4, 1942 he was placed in class 2-A. This classification was continued from time to time. His case was reviewed by Appeal Board #29, New York City which on March 2, 1944 recommended he be placed in class 2-A until March 29, 1944.

The file contained the request for deferment of the Bureau dated March 11, 1944, which had attached to it the usual forms testifying to MALONE's connection with the Bureau, his experience, etc. It also had in it a letter from the Bureau dated March 25, and stamped as received March 29, 1944, requesting a deferment for MALONE. In spite of the letter of March 11, the Board on March 21, classified MALONE in class 1-A. Board members JAMES F. WALSH and HARRY M. BENDER initialed the "minutes of action taken" as being in favor of this change. The minutes also had on them the notation that MALONE had been placed in 1-A "as this registrant is single". On March 30, 1944 his classification was changed to 2-A and he was granted a deferment until September 29, 1944. Board members BENDER and JACOB B. GRAZIANO approved this action, taken as a result of the letter of March 25 from the Bureau. //

JAMES F. WALSH, board member, was contacted and said he had recommended the 1-A classification as he doubted in his mind that a single person should be given a deferment when so many married men were being taken and that he wanted S.S. Headquarters in Harrisburg to pass on it. He admitted he had ignored the Bureau request for a deferment dated March 21, 1944. The work of the Bureau in relation to internal security was discussed with WALSH and the vital nature of the Bureau's work was pointed out to him. He advised that in the future he would be glad to recognize a Bureau request for deferment and that he is now satisfied that Bureau Agents should be deferred.

JACOB B. GRAZIANO, Board Chairman, stated he was not at the meeting of the Board on March 21st but that when MALONE'S case came to his attention after the receipt of the Bureau letter of March 25 he felt that a mistake had been made and voted to correct it by putting MALONE in 2-A. He stated he would honor any future request for deferment from the Bureau that had on it

the stamp "Authorized Government Request". Both Bureau letters had on them this stamp.

HARRY M. BENDER, Board Secretary, said that at the time MALONE'S status came before the board on March 21, WALSH reviewed the file and told him that MALONE was single and that he (WALSH) had placed him in 1-A. BENDER then initialed the minutes of action taken without himself checking the file. He stated that he saw that a mistake had been made when the status question came up again after the Bureau letter of March 25 and had then voted to put MALONE in 2-A. In the future he will recognize any request for deferment from the Bureau that has on it the stamp "Authorized Government Request". He agreed with GRAZIANO that Bureau agents should be deferred.

Your attention is also called to Philadelphia File #25-1288 which reports an investigation into the activities of this Board in 1942 and 1943. This investigation was undertaken after complaints had been received about the deferments granted by the Board. However, there was nothing in the attitude of the Board members when interviewed today that would indicate that the placing of MALONE in class 1-A was other than at the request of WALSH concurred in by BENDER without any check of the file.

(Supervisor A. E. OSTHOLTHOFF)

Malone is tall, well built and presents a good, business-like appearance. He is mature, possesses a pleasant personality and is popular with his co-workers. He has been assigned exclusively to Selective Service matters where he has participated in a substantial number of apprehensions. Malone is a hard, conscientious worker, produces a good volume of work and requires less than average supervision. He is willing and cooperative. He has handled the difficult and peculiar problems incurred in locating Chinese delinquents in a favorable manner. He has recently been assigned to the German Security Section which also handles Foreign Travel Control, and has readily adapted himself to this type of work. He is rated as a very good agent.

INSPECTOR HARBO

Agent Malone is 33 years of age and married. He comes from Pennsylvania. He has testified before Commissioners' hearings and at Grand Jury hearings. This Agent has a college degree with ten years of investigative experience prior to coming to the Bureau. He has a definite language background inasmuch as he is able to read, write and speak Latin and knows Hebrew, Greek, Italian, German, and French. He is interested in an SIS assignment and I believe that he could handle this capably. He is good natured, well mannered, and appears to have considerable tact. Although he is not considered very forceful, I believe that he is enthusiastic and wants to do a good job. He is rated as very good.

Any person entitled to do so may take an appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

RE: SPECIAL AGENT JOHN F. MALONE
SPECIAL AGENTS FOR SIS ASSIGNMENT

Dear Sir:

Reference is made to Bureau letter addressed to all Special Agents in Charge dated July 10, 1944 captioned SPECIAL AGENTS FOR SIS ASSIGNMENT.

Please be advised pursuant to the instructions of the Bureau in the above referenced communication, Special Agent John F. Malone of the New York office, who communicated a preference for such an assignment, was interviewed extensively on August 23, 1944 by Jerome Doyle of the New York SIS office along the lines desired by the Bureau.

During the course of this interview, it was noted that while this Agent has been on active duty since May 4, 1942, he has never had the opportunity of developing a confidential informant. He has no facility in any foreign language; he has had no prior Bureau experience easily adaptable to a cover company; and he possesses no particular qualifications fitted for a foreign assignment.

In view of the foregoing, it is my personal recommendation that this Agent is not qualified for a foreign assignment and no comment will be made concerning the eleven items in the Bureau's letter of reference.

JOHN F. MALONE - SPECIAL AGENT, CAF 11
ANNUAL EFFICIENCY REPORT AS OF MARCH 31, 1945

Special Agent John F. Malone entered on duty on May 4, 1942 and has been assigned to the New York Field Division since November 16, 1942. He is presently in Grade CAF 11 at a salary of \$3,800 per year.

Agent Malone is tall, well proportioned, and dresses neatly and conservatively. He presents a very good personal appearance, and is agile and capable of performing any assignment. He is friendly and gets along well with his fellow employees. I believe he makes a very favorable impression on law enforcement officers and the general public. He has indicated above average initiative and resourcefulness, and has sufficient force and aggressiveness to handle his assignments. He is able to organize and initiate investigations, and he accepts and discharges responsibility without supervision. He produces an above average volume of work. He is regarded as a very good dictator and his reports have been well prepared and require very little supervision. He maintains his desk, cabinet and other Bureau equipment in an orderly condition.

6-14409-113800
Agent Malone is qualified in the use of all Bureau firearms. His general ability is good. He observes all safety precautions and is capable of handling dangerous assignments. He has had considerable experience in the development of highly confidential sources of information not ordinarily available, and he has shown tact and initiative in this regard.

I have not had occasion to utilize this Agent on supervisory or administrative duties, although this ability may be latent. He is not exclusively assigned to a technical surveillance. He has had experience on physical surveillances and his work in this regard was very good.

Agent Malone has appeared before the United States Commissioner, the Grand Jury and Federal District Court during this past year, and he makes a creditable Bureau representative as a witness.

This Agent does not use the touch system of typing, but can operate a typewriter sufficiently to rough draft reports. He does not have the ability to take shorthand. He has passed his New York State drivers test and can operate a Bureau automobile. He has had considerable experience in the handling of photographic equipment. He also has considerable linguistic experience, having studied Latin for nine

years, Greek for two years, French for two years, Italian for two years, German for two years, and Hebrew for two years. He is presently taking the Spanish course given by this office.

Agent Malone is presently assigned to the section of this office handling Internal Security (R) matters. During this period, he has also handled Selective Service, Espionage, Denaturalization Proceedings, National Motor Vehicle Theft Act, Illegal Wearing of Uniform and Foreign Travel Control. Prior to March 31, 1944, he handled Selective Service, Applicants, Theft of Government Property, Extortion, Sabotage, Executive Clemency, Kidnaping, Escaped Federal Prisoners, Deserters and National Stolen Property Act. He also had experience in the development of plant informants and American Legion contacts.

Agent Malone is entitled to the rating of Excellent in Grade CAF 11.

Agent Malone is rather tall, well built and presents a nice physical and personal appearance. He expresses himself well and has a likeable personality. He comes from Pennsylvania, is married and New York is his second office, having been here since November 16, 1942. He claims his past work has been well diversified and expressed a great liking for the Russian espionage work he is now engaged in. He characterized his supervision as very good and mentioned the fact that he would like to be considered for an SIS assignment, preferably for Europe or any other place the Bureau might see fit to send him. He made a favorable impression during the interview. His dictation was described as Very Good by eight stenographers.

Re: JOHN F. MALONE
SPECIAL AGENT

b6
b7C

Dear Sir:

Special Agent John F. Malone advised that on January 11, 1946 at 5:45 P.M. while crossing 3rd Avenue in New York City between 43rd and 44th Streets from the west side of the street to the east side on foot, he was struck by an automobile driven by [redacted] Bronx, New York. There was also in the automobile at the time of the accident the owner of the car [redacted] Bronx, New York. The automobile involved was a [redacted] colored, with [redacted] New York license [redacted]

Agent Malone advised that at the time of the accident he was going to the Kent Garage where Bureau automobiles are garaged, to check out an automobile and then to cover a lead at the Hotel Lexington, New York City. This lead was in connection with the case of VICTORIA STONE; INTERNAL SECURITY - R, New York File 100-68393, and Agent Malone was going to contact Mr. WILER, Assistant Manager of the Lexington Hotel concerning HUBERT WOOD, a contact of VICTORIA STONE who was at that time staying at the Lexington Hotel.

Agent Malone states that he stepped off the curb on the west side of Third Avenue and proceeded as far as one of the pillars supporting the Third Avenue Elevated. For the Bureau's information, the Third Avenue Elevated operated over Third Avenue and is supported by numerous steel pillars approximately 16" square. Agent Malone stated he looked north on 3rd Avenue and observed a car proceeding in a southerly direction. Rather than standing to wait for the car, Agent Malone turned south and started to walk between the pillars. About 3' south of one of the pillars behind which he was standing Agent Malone was struck on the left thigh with the front right fender of the car, spun around to face a northly direction and knocked to the pavement about 2' to the right of the car, striking the back of his head on the pavement. He states that he arose and while not unconscious, was slightly dazed.

Agent Malone was taken by the driver of the car which struck him to the Ruptured and Crippled Hospital on 42nd Street at Tudor City where he was examined by a Dr. MURRAY. Upon the completion of the examination Dr. MURRAY stated that Agent Malone had no broken bones, but had contusions of the right thigh, left back, calf of the right leg and a

RRG:HGF

Letter - Director

sprained left index finger.

On Sunday, January 13, 1946, Agent Malone states his right leg began to swell and he called Dr. HUBERT J. AVRUTIS, 617 West 168th Street, New York City. Dr. AVRUTIS advised him telephonically that it appeared as though there was a ruptured blood vessel in his right leg and he prescribed treatment for this.

On January 14, 1946 Agent Malone obtained compensation forms CA 1, 2 and 16 and made arrangements for an examination at the U. S. Marine Hospital, 67 Hudson Street, New York City, on Tuesday, January 15, 1946. the Diagnosis at the hospital indicated he had a sprained muscle and ruptured blood vessel in the calf of his right leg, and a sprained index finger on the left hand.

Agent Malone reported for work Wednesday morning, January 16, 1946. However, his right leg began to swell and he went home on sick leave for the remainder of the week. He has an appointment for Monday morning, January 21, 1946, at the U. S. Marine Hospital for re-examination of his leg and finger.

Agent Malone states that the driver of the automobile which struck him maintained that Agent Malone walked into the side of the automobile, but Agent Malone emphatically maintains that such is not the case. He said he was aware of the presence of the car and the purpose of his changing his course in crossing the street directly, to walking south between the pillars, was because of the approaching automobile. It is Agent Malone's belief that the driver of the automobile was starting to turn between the pillars when he struck him. Neither the driver of the automobile nor the Agent obtained witnesses because of the resulting excitement.

The New York City Police Department was notified from the hospital and Patrolman F. MURPHY, Shield 9004, of the 17th Precinct, responded and took the report. He advised the driver of the automobile to fill out an accident form at the 17th precinct. The driver maintains that the car was traveling at approximately 10 miles per hour.

In subsequently speaking to Agent Malone concerning this matter, he advised that he was crossing in the middle of the block, which is a common practice in New York City, and he does not recall whether or not the traffic light was green or red at the intersection.

At approximately 7:00 P.M. on January 11, 1946, Agent Malone advised Special Agent Robert R. Granville of this office, Supervisor, of the accident and the general details. At that time he stated that he had been examined by a doctor and discharged. He said that he was able to travel without assistance and was going to continue home immediately. Agent Granville spoke to him about how he felt and offered to have an Agent with

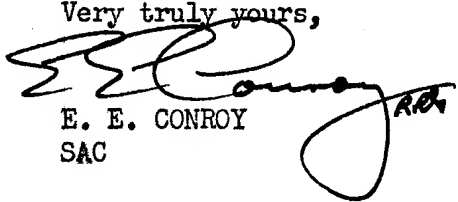

Letter - Director

a Bureau automobile pick him up and take him home. However, Agent Malone declined, stating that he felt all right and was able to continue home without any assistance.

A review of Agent Malone's #3 card for January 11, 1946 reflects that he signed out of the office at 5:00 P.M. for an interview with Mr. WILER, Assistant Manager of the Hotel Lexington, regarding HUBERT WOOD in connection with New York File 100-68393 which is the case involving VICTORIA STONE; INTERNAL SECURITY - R, and signed out for home at 7:00 P.M.

COMINTERN APPARATUS
INTERNAL SECURITY - R

You will recall that the Laboratory, on the basis of typewriter specimens secured from the home of [redacted] a resident in a farm house situated in the sparsely-populated rural area near Peekskill, New York, identified the [redacted] in this case.

b6
b7C

Investigation leading up to this identification had extended over a period of 2½ years and involved a tremendous expenditure of time and effort on the part of Bureau Agents. As a result of this identification, the [redacted] letters, which were directly associated with the activities of [redacted] prominent West Coast Communist functionary, and [redacted] ther [redacted] were linked to [redacted]. The resulting conclusion of this identification was that [redacted] is the individual for whom the Bureau had been searching as being on an equal level with the two above-mentioned individuals as a Comintern agent. After the elimination of numerous suspects, [redacted] remained in that category but could not definitely be linked with the leaders.

b6
b7C
b7D

The New York Field Office in the attached letter outlines the planning and resourceful efforts of Agents in that Office in securing typewriter specimens from the home of [redacted]. This was accomplished through the use of a radio car and two walkie-talkie units on the first occasion. Admission to the [redacted] home was only accomplished for a short period during the absence of [redacted] at a doctor's appointment, and preliminary specimens from the typewriter therein were secured. These were not sufficient for a definite identification. However, certain characteristics dictated the securing of additional specimens.

b6
b7C

Subsequent thereto, on the basis of this lead, these same agents through the assistance of [redacted], arranged for her to contact the [redacted] for the purpose of inquiring into the general health, age and other characteristics of a baby which they had recently adopted. Under a suitable pretext the [redacted] were asked to advise her by written communication concerning the details which she had requested. This was suggested when [redacted] indicated he desired legal counsel concerning this adoption before furnishing information. Even this small factor was anticipated by the investigating Agents and [redacted] had been properly coached as to what she should do.

b6
b7C

As anticipated, [redacted] addressed a communication to [redacted] on September 18, 1945 on the typewriter from which brief specimens had been previously taken. It was from this letter that the Bureau made a positive identification, bringing to a close a long period of intensive work to identify [redacted]

b6
b7C

RECOMMENDATION:

As will be seen in the detailed coverage of the investigative technique in the letter attached, the Agents responsible for this identification performed a most delicate and important inquiry in a highly efficient manner.

SAC Conroy has recommended that the Agents responsible for this identification be the recipients of a letter of commendation. The names are as follows:

Emory M. ~~X~~Gregg

b6

William J. ~~X~~McCarthy, Jr.
Edward J. ~~X~~Distelhorst
Hughitt H. ~~X~~Hinderaker
John F. ~~X~~Malone

From all the factors involved it is believed that the recommendation of SAC E. E. Conroy is not only justified ~~by the Bureau~~, but that the Bureau would be remiss in not recognizing the pre-eminent handling of this case if the efforts of these Agents were not the subject of commendation.

Re: JOHN F. MALONE, SPECIAL AGENT
SPEAKING ABILITY

Dear Sir:

DECLASSIFIED
ON 6-10-91

156.5 SDR/KSR

Agent Malone entered on duty with the Bureau as a Special Agent on May 4, 1942. Prior to his assignment at the New York Office on November 14, 1942, he served in the Buffalo Field Office. He is not a Bureau-approved speaker at the present time, but is desirous of earning this qualification.

Agent Malone advised that he studied public speaking at college, two hours per week for four years, and that he has had moderate speaking experience, consisting for the most part of his experience as a high school teacher.

This agent participated in the Speech School of the New York Office on June 26, 1946, speaking on the topic, "Juvenile Delinquency". Agent Malone has a sharp and well-modulated voice. The content of his prepared speech was very good. It was noted, during his performance, that he employed excellent phraseology and spoke in an animated fashion. No derogatory points were noted during his participation in the Speech School. Agent Malone was satisfactory in his answers to the questions on Bureau policy which were put to him at the conclusion of his speech.

This agent has not as yet prepared a manuscript of a proposed Bureau speech for submission to the Bureau, but advised that he expects to have completed a manuscript prior to August 1, 1946.

As a result of his performance before the Speech School mentioned above, Agent Malone is given a rating of Excellent, and it is believed that he is qualified to represent the Bureau as a speaker in accordance with existing Bureau policy.

Reference is made to your communication of July 24, 1946, enclosing a speech manuscript prepared by Special Agent John F. Malone of your office. The manuscript has been reviewed and found to be generally satisfactory. Special Agent Malone may be utilized in accordance with existing Bureau regulations.

It is suggested that you call the following to the attention of Special Agent Malone with reference to his manuscript:

On pages ten and eleven the mention of juvenile courts and child guidance clinics as described therein may lead an audience to feel that a Bureau representative is critical of the work those agencies are doing. It is suggested that this portion of the manuscript be revamped to point out that these agencies have performed a great service with reference to the juvenile problem but, of course, they need assistance from parents, schools, churches and the like.

Special Agent Malone's manuscript is being returned herewith.

RE: ADMINISTRATIVE OPERATIONS
NEW YORK FIELD OFFICE

Dear Sir:

It is my recommendation that Special Agent John F. Malone presently assigned to this office be designated to assist Special Agent [redacted] in the operations of the Training Unit of this office. A replacement is necessary at this time because of the fact that Special Agent John Colin Robinson has submitted his resignation as forwarded to the Bureau by letter dated December 13, 1946. Special Agent Robinson's resignation is effective at the close of business, December 31, 1946.

Special Agent Malone entered on duty with the Bureau on May 4, 1942 and is presently in Grade CAF 11. His efficiency report as of March 31, 1946, reflected his ability as excellent. This agent has indicated a great interest in police training matters and has made a generally favorable impression on Law Enforcement Officers. He is qualified by the Bureau as an instructor in Juvenile Control and also as a general police instructor. In addition, he has been authorized by the Bureau to conduct Field Office Firearms Training. He is also a qualified Bureau speaker. It is my firm belief that Special Agent Malone is fully qualified to assist Special Agent [redacted] in conducting the activities of the Training Unit of this office and that he will more than adequately perform the duties entailed therewith.

SAC Scheidt has recommended that Special Agent John F. Malone be designated to assist Special Agent [redacted] in the operations of the Training Unit of the New York Office. SAC Scheidt noted that this replacement was necessary because of the resignation of Special Agent John Colin Robinson, who formerly performed this work.

Concerning Agent Malone, it was pointed out that he entered on duty with the Bureau on May 4, 1942, that his efficiency report as of March 31, 1946 reflected his ability as excellent, that he had indicated a great interest in police training matters, had made a generally favorable impression on law enforcement officers, was qualified as an instructor in Juvenile Control, also as a general police instructor, as a Bureau speaker, and in addition has been authorized to conduct Field Office Firearms Training.

RECOMMEND APPROVAL.

The necessary letter of authorization to the New York Office is attached.

Annual Efficiency Report

March 31, 1947

Special Agent John F. Malone has been assigned to the Training and Inspection Division since January 16, 1947. Prior to that time he was assigned to the New York Field Division where he was assigned to the Internal Security—R Section of that office. According to SAC Scheidt his work in handling complex investigations was above average, and he indicated an ability to handle cases of an even more complex nature and was well rounded in the Bureau's work.

Special Agent Malone is tall, has an athletic build, dresses neatly, and makes a favorable impression on those with whom he comes in contact. He has a pleasant personality and the ability to get along with police officers and other Agents with whom he works.

This Agent is an excellent dictator. Since being at Quantico Agent Malone has shown above average resourcefulness and initiative. He has put in a large amount of voluntary overtime in the gun vault and in assisting new Agents who are having difficulty qualifying on the Bureau's courses. He is an excellent marksman and has a good knowledge of Bureau firearms. He is well qualified to handle dangerous assignments and to direct others on such assignments. He is interested in his work, accepts responsibility, and his work needs very little supervision.

I believe that Agent Malone has supervisory ability, although he has had little opportunity to demonstrate such ability since being at Quantico. *W*

I rate him excellent.

Annual Efficiency Report

SA John F. Malone has been assigned to the Training and Inspection Division since January 16, 1947, as a firearms instructor at Quantico, Virginia.

Agent Malone is tall, has a nice personality, and makes a very favorable impression on those with whom he comes in contact. He is resourceful and aggressive and very industrious. He has a good mechanical knowledge of Bureau firearms and is a good marksman. His work as a firearms instructor is outstanding. He is interested in his work which needs little supervision. I believe Agent Malone has both administrative and executive ability, and I rate him excellent.

The writer originally designated the Philadelphia Office as his office of preference. The reason for designating this office is because the writer's mother, who is advanced in years, lives alone at Carbondale, Pennsylvania, located within the jurisdiction of the Philadelphia Office. It was felt by the writer that if some emergency should arise, the writer could be home on short notice and that periodic trips could be made home without too much difficulty if he were located within a reasonable distance of home.

Because Washington is still within a reasonable distance of home and because the writer is desirous of obtaining as much experience as possible at the Seat of Government in order to better serve the interests of the Bureau, it is respectfully requested that his office of preference be changed from the Philadelphia Division to the Seat of Government at Washington.

The writer wishes to stress that this request in no way reflects on his availability to go anywhere at any time according as the Bureau may deem advisable and expedient.

MR. CLEGG (PERSONAL AND ~~CONFIDENTIAL~~)

December 16, 1948

H. L. SLOAN

JOHN F. MALONE
SPECIAL AGENT

DECLASSIFIED BY 1565 SDP/KSL
ON 6-22-91

Reference is made to SAC Letter No. 148 dated November 24, 1948, requesting the names of Special Agents who would be considered on a long-range basis for development as Special Agents in Charge.

John F. Malone: Agent Malone entered on duty as a Special Agent on May 4, 1942. He was assigned to the Buffalo Division until November, 1942, and in the New York Division until January, 1947. In those offices he received experience in the investigation of Internal Security Cases as well as Criminal Cases. Since January, 1947, he has been assigned to the Training and Inspection Division as a firearms instructor at Quantico, Virginia, and his work as such has been excellent. He is tall, well built, dresses neatly, is mature, and presents a good appearance. He has a friendly personality, gets along well with his fellow Agents, and possesses force and aggressiveness. He has initiative and has displayed resourcefulness on his assignments. He has demonstrated that he has good judgment, is calm, and I think he is Agent-in-Charge material. Although Agent Malone is presently assigned to Washington, I believe that it would be to the Bureau's advantage to afford him experience in some other phase of supervisory work at the Seat of Government inasmuch as his work with the Training and Inspection Division is highly specialized. He is available for such an assignment upon arrival of a replacement on the firearms instructors' staff.

Mr. Malone has not received Inspector's Aide Training nor has he had experience in field office administration. He is mature and plans to make his work in the Bureau his lifetime career.

MEMORANDUM FOR MR. CLEGG

Reference is made to the attached memorandum regarding Special Agents John F. Malone and [redacted]. In the event Agent Malone is transferred from his present assignment at Quantico, it is desired that he be replaced with one of the following men listed in order of preference.

- (1) Pershing Bell. This Agent is presently assigned to the Bureau as a Supervisor in the Loyalty Section. He does not have the rating of Administrative Firearms Instructor or Firearms Expert. It is my understanding that he does not hold a key position in the Loyalty Section and that he would not be too difficult to replace. He has the basic qualifications of a firearms instructor and would fit in with our organization at Quantico.
- (2) [redacted] presently assigned to the Miami Division.
- (3) Cecil M. Miller, presently assigned to the Savannah Division.

Respectfully,

H. L. Sloan

Mr. Malone was interviewed by me on February 8, 1949. Prior to being assigned to the Atomic Energy Section in the Security Investigative Division he was assigned to the Training and Inspection Division and was stationed at Quantico. Mr. Malone had no problems to discuss and advised that he understood the organizational setup of the Bureau.

I took this opportunity to remind Mr. Malone that he would be dismissed with prejudice for divulging the secrecy and security of Bureau information to persons not entitled to it.

OFFICE MEMORANDUM

UNITED STATES GOVERNMENT

TO : MR. LADD
FROM : V. P. Nease
SUBJECT :

DATE: March 7, 1949

Pursuant to the Director's instructions, I have personally warned each of the liaison men that they should not engage in "soliciting" for their own benefit in connection with liaison work. I pointed out that they were primarily engaged in this work to promote the interests of the Bureau. I also warned them against viewing with awe the high positions in the various departments contacted by them and pointed out that if they desired to seek one of these positions, they should definitely inform the Bureau.

This warning was given to the following liaison men and special Agent who by the nature of their work, contact outside agencies or substitute for liaison men.

On 4/28/49 the captioned Agent Supervisor was afforded an examination at the U. S. Naval Hospital for an ear condition, symptoms of which were a constant ringing in one ear. The doctor concluded that he had a temporary condition which would make it advisable for him to refrain from any firearms for a period of two months, after which he is to have a recheck. Accordingly, Mr. Malone will not participate in firearms for this period, and arrangements will be made to give him a recheck at the appropriate time.

Mr. Ken McIntire of the Training and Inspection Division has been advised.

At 12:20 a.m., Friday, June 3, 1949, the mother of Special Agent Supervisor John F. Malone passed away at St. Joseph's Hospital, Carbondale, Pennsylvania, after failing to recover from a stroke which she suffered approximately one month ago. The writer received the call from Mr. Malone's wife from Carbondale and immediately notified him, and he made arrangements to take the earliest plane home this morning. Mr. Victor P. Keay, Chief of his Section has been advised.

Mr. Malone's mother was a widow of approximately 75 years of age, living alone in Carbondale. Mr. Malone was most devoted to her, a fact well known to all of his friends and associates, and a fact which is borne out by numerous serials in his personnel file. He contributed substantially and regularly to her support. He is naturally very broken up concerning this matter.

Funeral arrangements are not known.

Dear Mr. Malone:

I was indeed sorry to learn that your Mother failed to recover from her last illness, and I wanted to let you know by means of this letter that my understanding sympathy and that of your other friends in the Bureau are with you during this sorrowful period.

All of us readily admit that it is not possible to do anything at a time like this to replace this great loss or to say anything to appreciably ease your sadness. Those of us, however, who have sustained similar losses and are familiar with the great devotion you had for your Mother, feel certain that you can justifiably take solace from the fact that you did everything possible during her life to make her happy and ease her burdens.

I want you to feel free to take as much time from your official duties as you deem desirable. Should there be anything any of us can do to assist you, I hope you will feel free to communicate with me.

Sincerely,

Dear Mr. Hoover;

I would like to extend to you my sincere appreciation for your very kind and thoughtful letter on the occasion of the passing away of my mother.

I wish also at this time to express my gratitude for the fact that during my seven years with the Bureau I have at no time been so far away from home that it was not possible to visit Mother with reasonable regularity. For this I will always be indebted to you and the Bureau.

Mother was very proud of the Bureau and of the fact that she had a son working for you.

JOHN F. MALONE
Assistant Special Agent in Charge

This is my special sixty-day efficiency report upon Mr. Malone who became a Bureau Agent May 4, 1942 and served in the Buffalo and New York Offices, for two years as a Firearms Instructor at Quantico, and for slightly over one year as a Supervisor in the Correlation and Liaison Section of the Bureau prior to reporting at Cleveland March 15th last.

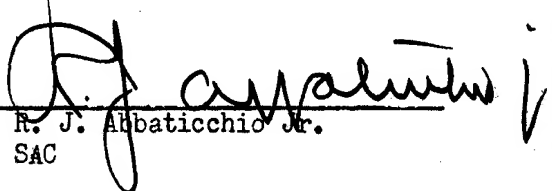

Mr. Malone is 39 years of age and married but with no children. He is quite tall, of athletic build and erect bearing, dresses very neatly, and presents a very good appearance. As ASAC here he is handling his first field supervisory assignment. His personality is quite pleasant and he has displayed considerable initiative and resourcefulness, as well as entirely adequate aggressiveness in the performance of his duties. The stenographers consider him an excellent dictator, he is a very good shot, being a member of the Bureau's "Possible Club"; he appears to be in excellent physical condition and is experienced and entirely capable of leading and participating in dangerous assignments. His work has entailed supervision of the Criminal Squad consisting of some 20 agents in the headquarters city, plus an additional 20 on the road and in Resident Agencies.

I have been very favorably impressed with Mr. Malone's paper work in that his memoranda and letters are clear, concise and to the point. He organizes his work very capably and gives considerable thought to the acceptance and proper discharge of all his responsibilities, both in the supervision of his squad and cases and in the matter of acting in charge of the office during my absences. He appears to meet people easily and well, both in the peace officer and businessman categories, and he has made a number of public talks in this district upon which I have received favorable comments. Mr. Malone has not had actual experience in testifying in court, although he has appeared before Grand Juries and United States Commissioners on many occasions. Judging from his bearing and knowledge of the work I feel he should have no difficulty representing the Bureau capably as a witness. He is experienced on physical surveillances and available for assignment whenever and wherever needed. He has received specialized training and is qualified as a General Police and Juvenile Control Lecturer and is a Firearms Expert.

In summary, Mr. Malone has made a very favorable impression both upon me and upon others in the office in the conscientious and able manner in which he has assumed the duties of his new position. He is as yet not entirely familiar with all of the ramifications of the types of cases on his desk due to his assignment to other matters over the past several years, however, he is most careful and devotes considerable time and effort toward

acquainting himself with the details of these situations as they arise and has exhibited very good judgment in his handling of a number of miscellaneous matters which have occurred both in relation to his own desk and to the general operation of the office in my absences. He appears to possess a very good over-all appreciation of the problems incident to the upholding and enhancement of the Bureau's standing in a field office territory and all in all he has done a very commendable job in his new position.

Mr. Malone has shown considerable administrative ability; he appears to possess the basic qualifications for further advancement, and when he has had additional experience in his present position I see no reason why he should not be considered for additional promotions.

PURPOSE:

To advise of commendatory remarks made by [redacted] Representative, Loyalty Review Board, concerning the excellent spirit of cooperation afforded to a panel of the Board by ASAC J. F. Malone of the Cleveland Office in connection with recent hearings held by the Board in Cleveland, Ohio.

BACKGROUND:

You may recall that for the past two weeks a panel of the Loyalty Review Board has been in Cleveland, Ohio, conducting hearings concerning twelve Cleveland Post Office employees. During the course of the hearings in Cleveland, [redacted] has been in daily contact with our Cleveland Office and has been dealing with ASAC Malone. He has raised various questions throughout the proceedings and ASAC Malone, after consultation with the Bureau, has been directed to furnish [redacted] with various types of information desired by the Board as a result of questions raised during the progress of the hearings.

This morning, [redacted] called [redacted] office and spoke to [redacted] who has been acting in [redacted] absence. He advised that the panel of the Board has completed its hearings and has returned to Washington. He stated that the purpose of his call was to advise the Bureau of the excellent spirit of cooperation which the panel of the Board had received from ASAC J. F. Malone of the Cleveland Office. He pointed out that Mr. Malone had cooperated several times privately before the Board and in each instance had cooperated fully in answering the Board's questions. Throughout the hearings, Mr. Malone was anxious and willing to assist the Board in any way it was possible for him to do so, and on one occasion in particular, had stayed with the Board until 7:30 P.M. in the evening willingly devoting his own time for the convenience of the Board. On this occasion, ASAC Malone had been scheduled to appear before the Board at 3:30 in the afternoon, but by reasons of unexpected delays, the Board had not been in a position to hear him, and he had willingly returned later in the afternoon staying until 7:30 in the evening for the Board's convenience.

[redacted] advised that all the members of the panel of the Board who assisted in the hearings in question were very enthusiastic about the excellent and whole-hearted cooperation extended by ASAC Malone, and all had

1. It is recommended that ASAC John F. Malone of the Cleveland Division be transferred to San Diego as SAC with no change in grade or salary at this time. He should come by Warner.

Mr. Malone entered on duty as a Special Agent on May 4, 1942 and is presently in Grade GS-13, \$7600 per annum. He is 40 years of age, married and has no children. He has a Bachelor of Arts Degree. He is a legal resident of Carbondale, Pennsylvania and has no office of preference. He has previously served in the Buffalo and New York Divisions, as a firearms training expert in the Training and Inspection Division and as a Supervisor in the Security Division prior to being designated ASAC at Cleveland on March 15, 1950.

Mr. Malone has an excellent record in the Bureau's service, he has been reported on very favorably by SAC Abbaticchio at Cleveland and the Director saw him in March 1950 and said he made an excellent personal appearance, seemed to be enthusiastic and interested in his work and he believed he would take hold in an enthusiastic manner as ASAC at Cleveland. Mr. Malone makes an excellent personal appearance, has a very fine personality and I believe that he has outstanding qualifications for further advancement in the Bureau's service. I definitely feel he can well administer an office such as San Diego as SAC.

2. It is recommended that SAC [redacted] of the San Diego Office be transferred to San Francisco as a Special Agent on general assignment in Grade GS-13, \$8200 per annum.

Frank Macomber of the Copley Press representing San Diego newspapers advised Mr. McGuire today that he understood John Malone was being transferred to San Diego as SAC. He was told this was correct. He was also told that the transfers were routine administrative transfers.

Frank Macomber, of course, lives in Park Fairfax and when Malone was assigned to the Seat of Government, Malone's apartment was adjacent to Macombers and the two families have been very close friends.

Macomber had a good deal of background available on Malone. He also asked for a photograph and it was suggested that when Malone arrives in San Diego he would be very glad to arrange with the local paper for a photograph to be taken.

I will see Malone when he is in the Bureau this weekend and tell him about this.

MEMORANDUM FOR MR. TOLSON

Yesterday I saw Special Agent John F. Malone who is under orders of transfer from Cleveland, where he has served as Assistant SAC, to San Diego to assume the duties of SAC of that office. I outlined to Mr. Malone some of the matters which had given me concern in the administration of the San Diego Office, calling his attention specifically to [redacted]

[redacted] to properly administer that office; to properly arrange for appropriate security at the radio station; for failure to properly see that adequate telephone service had been installed in that office; for his failure to properly schedule Agent-Supervisor conferences and clerical-supervisor conferences, and for his failure to have established the proper contact with local law enforcement agencies in that area.

I called Mr. Malone's attention to the bad discipline prevalent among the employees of the radio station.

I outlined to Mr. Malone my displeasure at the manner in which the [redacted] case had been handled and particularly the adverse publicity which had been directed to the Bureau by the Imperial Valley Press of El Centro, California. I stressed the fact that I wanted a firm and vigorous administration of the San Diego Office but I wanted it to be at the same time fair.

I gave to Mr. Malone the names of a number of persons in his Field Division who had been very good friends of the Bureau and who were also good friends of mine: General VanDeman of San Diego; Colonel Forney of San Diego; Mr. Earl Coffman of Palm Springs and Del Mar; Colonel Dutton of La Jolla; Mrs. Helen Kimble of La Jolla; Dr. Copp of La Jolla; Mr. and Mrs. Tippet of Del Mar; and Dr. Keeney of San Diego.

I also asked Mr. Malone in due time to get in touch with the superintendent of the Gillespie Welfare Foundation at La Jolla, in which the Bureau and myself have taken some personal interest.

MEMORANDUM FOR THE DIRECTOR:

RE: PRESIDENTIAL LOYALTY REVIEW BOARD
HEARING INVOLVING CLEVELAND POST
OFFICE DEPARTMENT EMPLOYEES

Pursuant to telephonic Bureau instructions of 9:30 Pm, September 23, 1950, the following is submitted regarding the Director's inquiry as to why the ASAC at Cleveland did not inform the Bureau when a member of captioned Board questioned the use of different T symbols for the same informant in Bureau reports.

The writer respectfully informs that on June 26th, immediately following the first Review Board session at which he appeared pursuant to Bureau instructions, [redacted] a representative of the Board, advised that a Board member had concluded from a study of the Bureau reports that in some instances the same informant seemed to appear in the same report more than once and each time under a different symbol. Accordingly, in order to better evaluate the information contained in these reports, the Board member would like to know the number of actual informants represented by T symbols in each of the eleven cases then being considered.

b6
b7C

It was on the basis of [redacted] statement and instant request of the Board, that on June 26th the writer conveyed this information to the Bureau telephonically, whereupon the Bureau by teletype of the same date authorized the Cleveland Office to review the files upon the eleven persons under consideration and to advise [redacted] informally as to the number of actual informants represented by the T symbols employed in these cases. Accordingly, on June 27th, the writer furnished the desired information to [redacted] and inasmuch as in some instances the number of actual informants was less than the number of T symbols appearing in the body of a report, it was of course obvious to the Board that in some reports a single informant had been given more than one T symbol in confirmation of the prior observation of a Board member as above.

Again, when on July 24th [redacted] requested the writer to supply information as to the number of actual informants represented by the T symbols in our reports upon seven additional individuals whose cases were being heard by the Board, this request was presented to the Bureau by teletype of the same date and as in the previous instance, Bureau teletype of July 25th authorized Cleveland to supply this information.

When, on July 27th, the Board member, [redacted] indicated to the writer that the same informants were appearing under more than

one T symbols in certain reports, he was merely reiterating information previously supplied the writer by [REDACTED] and explaining the Boards reason for having had [REDACTED] secure the data outlined above from this office on the two prior occasions.

It is felt therefore, that the Bureau was fully advised by this office of the Loyalty Review Boards observation concerning the use of different T symbols for the same informant.

Respectfully submitted,

JOHN F. MALONE
ASSISTANT SAC

This special efficiency report is occasioned by the designation of Mr. Malone as SAC of the San Diego Office.

In reviewing the comments contained in my report prepared July 6th last, I find that they rather completely reflect my present opinion of his personal characteristics and qualifications. He has, however, since that date been commended by the Director upon his attitude and performance of duty in connection with a number of hearings before the Loyalty Review Board at Cleveland, which made an excellent impression upon the Board members.

During his period of service here, Mr. Malone continued to evidence alertness, good judgment and a very conscientious regard for all his duties and responsibilities. He was quite popular with the office staff, made an excellent impression upon outsiders and evidenced initiative, resourcefulness and good judgment in his attention to all duties and in the administration of the office in my absence. He obtained considerable experience along the various lines pertinent to his new position and should have no difficulty in the handling of a field office.

Mr. Malone assisted in the recent inspection of the Washington Field Office. He had previously assisted in the inspection of the Identification Division but had no prior experience on a field office inspection. He applied himself diligently and enthusiastically and did a very good job. He put in an unusual amount of voluntary overtime. His performance was entirely satisfactory and I believe that with further experience he will be well above average as an Inspector's Aide.

At 11:00 a.m. (2/12/51), while the Executives' Conference was in session, SAC Abbaticchio telephonically spoke to me to get clearance on the dates for Mr. Malone to report to the Seat of Government for conference prior to assuming his new position as SAC at San Diego.

Mr. Abbaticchio recommended that Mr. Malone be permitted to come to the Seat of Government on Tuesday and Wednesday, February 13 and 14, for his conferences. He stated these dates would be preferable, inasmuch as Mr. Malone planned to drive his wife to her home in Pennsylvania to visit her aged, ill mother for a couple of days prior to going to San Diego, and if he could come to the Seat of Government Tuesday and Wednesday, he would be able to spend Thursday and Friday at the mother's home and then proceed back to Cleveland and be in Cleveland while SAC Abbaticchio attends two-day conferences on February 19 and 20 at the Seat of Government.

The second choice would be for Mr. Malone to be at the Seat of Government Friday and Saturday of this week, February 16 and 17.

SAC Abbaticchio stated that any dates desired by the Bureau would be entirely satisfactory, but he would like to be immediately advised so that Mr. Malone can proceed with plans.

RECOMMENDATION: That Mr. Malone be authorized to come to the Seat of Government Tuesday and Wednesday, February 13 and 14, and that SAC Abbaticchio be immediately advised, so that Mr. Malone can get started as promptly as possible.

MEMORANDUM FOR MR. TOLSON

On June 26, 1951, I saw Special Agent in Charge John F. Malone of the San Diego Field Division. Mr. Malone does not impress me as strongly as he did when I saw him when he was en route to San Diego. He does not seem to have the punch and drive to him that I noted on my previous conference with him. I think he is intensely interested in his position as SAC and has made a diligent effort to grasp the problems of the San Diego Office.

b6

I discussed with him generally the administrative operations of that Office in view of the very poor report of same when it was last inspected when [redacted] Mr. Malone indicated that he has corrected many of the matters that were mentioned by the Inspector.

I discussed with him the matter of the investigative delinquency; the necessity for adequate informant coverage in both the criminal and subversive fields; the necessity for tight control of the Resident Agents; and particularly of the personnel attached to the radio stations in the suburbs of San Diego. I also mentioned to him the relationship which I desired to have maintained with the Attorney General in the State of California, Mr. Brown. I pointed out that our dealings with him should be most circumspect in view of Mr. Brown's background and activities and in view of certain personnel which he has appointed in his office since becoming Attorney General of California.

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

Name of Employee JOHN F. MALONE Title SPECIAL AGENT IN CHARGE

Rating Period: from 4-1-50 to 3-31-51

Rate items as follows:

<u>✓</u>	Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
<u>-</u>	Unsatisfactory.
<u>0</u>	No opportunity to appraise performance during rating period.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

- (1) Personal appearance.
- (2) Personality and effectiveness of his personal contacts.
- (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
- (4) Physical fitness (including health, energy, stamina).
- (5) Resourcefulness and ingenuity.
- (6) Forcefulness and aggressiveness as required.
- (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
- (8) Initiative and the taking of appropriate action on own responsibility.

Dear Mr. Malone:

I am attaching hereto a copy of a letter addressed to all Special Agents in Charge covering the Bureau's revised Special Agent applicant interviewing and examining procedure. The program is fully explained therein and need not be again set forth in this communication.

You are being designated to handle Special Agent applicant interviews and examinations in San Diego.

I know I need not point out to you the importance of the proper implementation of this program. Many individuals totally lacking in the basic qualifications for appointment to the position of Special Agent have been favorably recommended by interviewing officials in the past and have entered on duty in our service. As a consequence, it has been necessary to take action at Washington to separate these individuals from our rolls after they have entered on duty. This action causes hardship for the applicant and subjects the Bureau to possible criticism through disgruntled former employees whose resignations have been requested.

I trust that through our present program we will have overcome this undesirable tendency to recommend unqualified applicants for appointment. Each interviewer must bear in mind that the applicants he recommends will be the life blood of the Bureau in future years. We must insure that the Bureau will continue to be an aggressive, honest and virile organization. This can be assured through the appointment of only those applicants who possess the highest qualifications for the position.

Each interviewer must be positive that the applicant recommended has the proper appearance, personality, education, and native intelligence to function properly on any assignment which may be given.

So that the applicant's ability to express himself properly in written material may be evaluated by you, the Bureau has approved the addition of a question to our present examination wherein the applicant will be asked to state fully on the sheet of paper containing the question why he is desirous of becoming a Special Agent of the Bureau. Other questions of a like nature may be utilized by the interviewing official.

This additional question should be mimeographed in the field for use with the examination papers presently in the possession of the field. As additional examination papers are sent to the field, this additional question will be appended thereto at the Seat of Government. With the inclusion of this additional question, the time limit for the regular law examination is increased from two to two and one-half hours and the accounting examination from four to four and one-half hours.

In the event you have any question in mind regarding this program, please communicate promptly with the Bureau concerning it.

Sincerely yours,

J. Edgar Hoover

DECLASSIFIED BY 1565 SDP/KSR

ON 6-10-91

Dear Sir:

I wish to call your attention to the recent separation of Special Agent Employee [redacted] from the Bureau's service, since you interviewed him and recommended him favorably for appointment while you were assigned to the Cleveland Office. For your information, this man admitted that several times a week he would stop at his residence to rest during official working hours, he falsified official records, did not discharge his assignments properly and used a Bureau automobile in connection with his personal activities. In addition [redacted] exhibited "smart alecky" mannerisms, which caused him to be unpopular with other Agents who had occasion to contact him.

I have repeatedly emphasized the need for the thorough screening of Agent candidates and the purpose of these instructions is clearly demonstrated in the results of your poor selection in this instance. In the event you make any further unsound recommendations of this type, more severe administrative action may be taken against you.

Very truly yours,

John Edgar Hoover

OFFICE MEMORANDUM . UNITED STATES GOVERNMENT

TO : MR. TOLSON
FROM : W. R. GLAVIN
SUBJECT :

August 3, 1951

I am attaching hereto a brief of the file of ASAC James C. Ellsworth of the Los Angeles Office with the suggestion that he be approved to handle Special Agent applicant interviews in the Los Angeles and San Diego Offices. At the present time ASAC Burton of the Seattle Office is handling all Special Agent applicant interviews on the west coast, that is, Seattle, Portland, San Francisco, Los Angeles, and San Diego. The number of applicants we are receiving, particularly in the California offices, at the present time, make it necessary for Burton to be away from the Seattle Office longer than I feel is desirable and it is felt that if Ellsworth were approved for the handling of Agent applicant interviews in Los Angeles and San Diego, Burton could handle the other three offices without being absent from official headquarters too great a period of time in any one week. At the present time, there is an average of 8 Agent applicants a week in the Seattle and San Francisco Offices and an average of 6 Agent applicants a week in the Portland Office.

J. F. Malone

Ellsworth, if assigned to interview Agent applicants, and being assigned to the Los Angeles Office which is one of the largest offices where we are receiving approximately 20 applicants a week at the present time, would be able to schedule these applicants without interference with his present duties as ASAC in that office.

There are a limited number of applicants applying at the San Diego Office, approximately 4 a week, and these applicants could be handled without too much difficulty by Ellsworth.

I have had the opportunity to review a number of Special Agent applicant files in which Mr. Ellsworth made the initial recommendations and I feel that he is qualified to conduct such interviews.

Pending your decision, no further action is being taken in connection with this recommendation at the present time.
